NEW CONCEPT ENERGY, INC. AND SUBSIDIARIES
Notes To Consolidated Financial Statements

NOTE A: BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements include the accounts of New Concept Energy, Inc. and its majority-owned subsidiaries (collectively, "NCE" or the "Company"). All significant intercompany transactions and accounts have been eliminated.

The unaudited financial statements included herein have been prepared by the Company without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements reflect all adjustments that are, in the opinion of management, necessary to fairly present such information. All such adjustments are of a normal recurring nature. Although the Company believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description of significant accounting policies normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to such rules and regulations.

These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ending December 31, 2011. Operating results for the six month period ended June 30, 2012 are not necessarily indicative of the results that may be expected for any subsequent quarter or for the fiscal year ending December 31, 2012.

NOTE B: NATURE OF OPERATIONS

The Company operates oil and gas wells and mineral leases in Athens and Meigs Counties in Ohio and in Calhoun, Jackson and Roane Counties in West Virginia through its wholly owned subsidiaries Mountaineer State Energy, LLC and Mountaineer State Operations, LLC.

The Company also leases and operates a retirement community in King City Oregon, with a capacity of 114 residents.

NOTE C: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

We consider accounting policies related to our estimates of depreciation amortization and depletion, segments, oil and gas properties, oil and gas reserves, gas gathering assets, office and field equipment, revenue recognition and gas imbalances, leases, revenue recognition for real estate operations, impairment, and sales of real estate as significant accounting policies. The policies include significant estimates made by management using information available at the time the estimates are made. However, these estimates could change materially if different information or assumptions were used. These policies are summarized in our Annual Report on Form 10-K for the year ended December 31, 2011.

NOTE D: OIL AND GAS RESERVES

The Company uses the full cost method of accounting for its investment in oil and natural gas properties. Under this method of accounting, all costs of acquisition, exploration and development of oil and natural gas properties (including such costs as leasehold acquisition costs, geological expenditures, dry hole costs, tangible and intangible development costs and direct internal costs) are capitalized as the cost of oil and natural gas properties when incurred.

The full cost method requires the Company to calculate quarterly, by cost center, a "ceiling," or limitation on the amount of properties that can be capitalized on the balance sheet. To the extent capitalized costs of oil and natural gas properties, less accumulated depletion and related deferred taxes exceed the sum of the discounted future net revenues of proved oil and natural gas reserves, the lower of cost or estimated fair value of unproved properties subject to amortization, the cost of properties not being amortized, and the related tax amounts, such excess capitalized costs are charged to expense.

The standardized measure of discounted future net cash flows and changes in such cash flows are prepared using assumptions required by the Financial Accounting Standards Board and the Securities and Exchange Commission. Such assumptions include a standardized method for determining pricing and require that future cash flow be discounted using a 10% rate. The valuation that results may not represent management's estimated current market value of proved reserves.

During the past few years the exploration, development and production of natural gas has resulted in an oversupply of natural gas which has resulted in a substantial reduction in the market price. Management of the Company believes that this oversupply will last for some time and does not anticipate an increase in the price we can receive in the market place. In April 2012 the Company entering into an agreement to fix the price it receives for the sale of its gas. For the five years ended April 2017 the Company will receive \$4.53 per MCF. While the lock-in price is higher than the current market price for natural gas when applying the new price using the formula mandated by the accounting rules the result was a reduction of \$912,000 in value of the Company's recorded interests in its oil and gas properties. This reduction in value has been reflected in financial statements of the company as of June 30, 2012.

NOTE E: CONTINGENCIES

Carlton Energy Group, LLC

In December 2006, Carlton Energy Group, LLC ("Carlton") instituted litigation against an individual, Eurenergy Resources Corporation ("Eurenergy") and several other entities including New Concept Energy, Inc., which was then known as CabelTel International Corporation (the "Company") alleging tortious conduct, breach of contract and other matters and as to the Company that it was the alter ego of Eurenergy. The Carlton claims were based upon an alleged tortious interference with a contract by the individual and Eurenergy related to the right to explore a coal bed methane concession in Bulgaria which had never (and has not to this day) produced a drop of hydrocarbons. At no time during the pendency of this project or since did the company or any of its officers or directors have any interest whatsoever in the success or failure of the so-called "Bulgaria Project". However, in the litigation, Carlton alleged that the Company was the alter-ego of certain of the other Defendants including Eurenergy.

Following a jury trial in 2009, the Trial Court (295th District Court of Harris County, Texas) reduced the actual damages found by the jury of \$66.5 million and entered judgment against EurEnergy and The individual jointly and severally for \$31.16 million in actual damages on its tortious-interference claim and the Court further assessed exemplary damages against The individual and EurEnergy in the amount of \$8.5 million each. The Court granted a judgment for the Company that it was not the alter ego of any of the other parties and thereby would not incur any damages.

Cross appeals were filed by Carlton, The individual and EurEnergy to the Court of Appeals for the First District of Texas (the "Court of Appeals") which rendered its opinion on February 14, 2012. The Court of Appeals opinion, among other things, reinstated the jury award of actual damages jointly and severally against The individual and EurEnergy in the amount of \$66.5 million and overturned the Trial Court's ruling favorable to the Company rendering a judgment for that amount plus exemplary damages against the Company as the "alter ego" of Eurenergy.

All of the defendants, including the Company, have filed a Petition for Review of the Court of Appeals Decision with the Supreme Court of the State of Texas. The Company vigorously denies that it is the "alter ego" of any other entity; further the Company strongly believes that the Court of Appeals opinion is erroneous in concluding that the Company is an "alter ego" of any other entity which is contrary to Nevada substantive law. There are also questions regarding the underlying liability of EurEnergy and if Eurenergy is successful in its petition for review or, even if unsuccessful if the Company is successful on its positions described above, the Trial Court's judgment could be reinstated and the Company would have no liability on this claim.

Chesapeake Exploration Limited Partnership and Chesapeake Operating, Inc. ("Chesapeake") In January 2006, the Company entered into a joint operating agreement evidencing its acquisition of a 5% interest in two gas wells being drilled and ultimately operated by Chesapeake. The Company relied on the cost projections provided by Chesapeake to make its investment decision. Subsequent to its investment, the Company received an invoice from Chesapeake for \$556,217 which, according to Chesapeake, represents the Company's 5% share of additional costs incurred by Chesapeake in drilling the wells. The Company believes that these additional costs far exceed any reasonable expense that should have been incurred in drilling the two wells and were incurred without notifying the Company of such expenses. The Company has requested an accounting of the additional expenses and a reconciliation of the final costs to the cost estimates previously presented. In April 2007, Chesapeake filed a lawsuit against the Company and others in District Court of Tarrant County, Texas.

In March 2011, Chesapeake received a summary judgment award for \$686,874 plus legal fees. The Company has appealed the judge's ruling. The Company is vigorously pursuing its legal options however the Company has also recorded its potential obligation should Chesapeake prevail.

The wells in question are producing natural gas to which the Company is entitled to its pro rata share. Chesapeake is withholding the amounts due the company until the legal matter is resolved. As of June 30, 2012 the Company has recorded a liability due Chesapeake of \$491,000.

Other

The Company has been named as a defendant in other lawsuits in the ordinary course of business. Management is of the opinion that these lawsuits will not have a material effect on the financial condition, results of operations or cash flows of the Company.

NOTE G: NEWLY ISSUED ACCOUNTING STANDARDS

We have considered all other newly issued accounting guidance that is applicable to our operations and the preparation of our consolidated statements, including that which we have not yet adopted. We do not believe that any such guidance will have a material effect on our financial position or results or operation.

NOTE H: SUBSEQUENT EVENTS

The Company has evaluated subsequent events through August 13, 2012, the date the financial statements were available to be issued, and has determined that there are none to be reported.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Critical Accounting Policies and Estimates**

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. Certain of the Company's accounting policies require the application of judgment in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. These judgments and estimates are based upon the Company's historical experience, current trends and information available from other sources that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company's significant accounting policies are summarized in Note B to our consolidated financial statements in our annual report on Form 10-K. The Company believes the following critical accounting policies are more significant to the judgments and estimates used in the preparation of its consolidated financial statements. Revisions in such estimates are recorded in the period in which the facts that give rise to the revisions become known.

Oil and Gas Property Accounting

The Company uses the full cost method of accounting for its investment in oil and natural gas properties. Under this method of accounting, all costs of acquisition, exploration and development of oil and natural gas properties (including such costs as leasehold acquisition costs, geological expenditures, dry hole costs, tangible and intangible development costs and direct internal costs) are capitalized as the cost of oil and natural gas properties when incurred.

The full cost method requires the Company to calculate quarterly, by cost center, a "ceiling," or limitation on the amount of properties that can be capitalized on the balance sheet. To the extent capitalized costs of oil and natural gas properties, less accumulated depletion and related deferred taxes exceed the sum of the discounted future net revenues of proved oil and natural gas reserves, the lower of cost or estimated fair value of unproved properties subject to amortization, the cost of properties not being amortized, and the related tax amounts, such excess capitalized costs are charged to expense.

The standardized measure of discounted future net cash flows and changes in such cash flows are prepared using assumptions required by the Financial Accounting Standards Board and the Securities and Exchange Commission. Such assumptions include a standardized method for determining pricing and require that future cash flow be discounted using a 10% rate. The valuation that results may not represent management's estimated current market value of proved reserves.

Doubtful Accounts

The Company's allowance for doubtful accounts receivable and notes receivable is based on an analysis of the risk of loss on specific accounts. The analysis places particular emphasis on past due accounts. Management considers such information as the nature and age of the receivable, the payment history of the tenant, customer or other debtor and the financial condition of the tenant or other debtor. Management's estimate of the required allowance, which is reviewed on a quarterly basis, is subject to revision as these factors change.

Deferred Tax Assets

Significant management judgment is required in determining the provision for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against net deferred tax assets. The future recoverability of the Company's net deferred tax assets is dependent upon the generation of future taxable income prior to the expiration of the loss carry forwards. At June 30, 2012, the Company had a deferred tax asset due to tax deductions available to it in future years. However, as management could not determine that it was more likely than not that the benefit of the deferred tax asset would be realized, a 100% valuation allowance was established.

Liquidity and Capital Resources

At June 30, 2012, the Company had current assets of \$321,000 and current liabilities of \$492,000.

Cash and cash equivalents at June 30, 2012 were \$100,000 as compared to \$109,000 at December 31, 2011.

Net cash used in operating activities was (\$3,000) for the six months ended June 30, 2012. During the six-month period, the Company had a net loss of \$1,436,000. Included in the net loss was an impairment loss of \$912,000 to reflect a reduction in the accounting value of the Company's oil and gas reserves. Also included in operating activities were non cash expenses including depreciation, depletion and amortization of \$377,000 and reserves for future retirement of debt obligations of \$128,000.

Net cash used in investing activities was \$32,000 for the six months ended June 30, 2012, consisting of the purchase of equipment and other capitalized drilling costs at the Company's oil and gas production facility.

Net cash provided in financing activities was \$20,000 for the six months ended June 30, 2012, consisting of a net increase in loans from a bank.

Results of Operations

The Company reported a net loss of \$1,436,000 for six months ended June 30, 2012, as compared to net income of \$163,000 for the similar period in 2011.

For the six months ended June 30, 2012, the Company recorded oil and gas revenues of \$615,000 as compared to \$560,000 for the comparable period of 2011. The changes in oil & gas revenue was due to an increase of approximately \$130,000 due to new oil wells that were drilled in late 2011 and a decrease of approximately \$75,000 due to lower prices being received for the sale of our natural gas.

The Company recorded revenues of \$1,337,000 for the six months ended June 30, 2012 from its retirement property compared to \$1,462,000 for the comparable period in 2011. The decrease was due almost entirely to a reduction in the number of residence in the facility.

For the six months ended June 30, 2012, the Company recorded oil and gas operating expenses of \$924,000 as compared to \$700,000 for the comparable period of 2011. The increase was principally due to an increase in depletion expense. The marked decrease in the market price being paid for natural gas resulted in a modification in the valuation the company placed on its gas reserves which impacted the anticipated production life of its wells. This lead to an acceleration of the depletion expense being recorded.

For the six months ended June 30, 2012, operating expenses and lease expense at the retirement property were \$719,000 as compared to \$711,000 for the comparable period in 2011.

For the six months ended June 30, 2012, corporate general & administrative expenses were \$293,000 as compared to \$250,000 for the comparable periods in 2011. The increase is primarily due to legal fees incurred by the company to defend itself against certain lawsuits.

For the six months ended June 30, 2012, interest income was \$0 as compared to \$239,000 for the comparable period in 2011. In December 2011 the Company became concerned about the collectability of a certain note receivable and determined that the note and any accrued interest be fully reserved. The company continues to accrue interest but provides a full reserve should it be unable to collect.

For the six months ended June 30, 2012 the Company recorded interest expense of \$118,000 as compared to \$62,000 for the comparable periods in 2011. The increase is due to additional interest due on financing obtained in late 2011. The proceeds were used to drill wells.

The Company recorded other income of \$108,000 for the six months ended June 30, 2012. In 2011 other income was \$72,000 for the comparable period. The income in 2011 was the result of a legal settlement where the Company had previously over accrued for its portion of the loss.

Forward Looking Statements

“Safe Harbor” Statement under the Private Securities Litigation Reform Act of 1995: A number of the matters and subject areas discussed in this filing that are not historical or current facts deal with potential future circumstances, operations and prospects. The discussion of such matters and subject areas is qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from the Company’s actual future experience involving any one or more of such matters and subject areas relating to interest rate fluctuations, the ability to obtain adequate debt and equity financing, demand, pricing, competition, construction, licensing, permitting, construction delays on new developments, contractual and licensure, and other delays on the disposition, transition, or restructuring of currently or previously owned, leased or managed properties in the Company’s portfolio, and the ability of the Company to continue managing its costs and cash flow while maintaining high occupancy rates and market rate charges in its retirement community. The Company has attempted to identify, in context, certain of the factors that it currently believes may cause actual future experience and results to differ from the Company’s current expectations regarding the relevant matter of subject area. These and other risks and uncertainties are detailed in the Company’s reports filed with the Securities and Exchange Commission (“SEC”), including the Company’s Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q.

Inflation

The Company's principal source of revenue is rents from a retirement community and fees for services rendered. The real estate operation is affected by rental rates that are highly dependent upon market conditions and the competitive environment in the areas where the property is located. Compensation to employees and maintenance are the principal cost elements relative to the operation of this property. Although the Company has not historically experienced any adverse effects of inflation on salaries or other operating expenses, there can be no assurance that such trends will continue or that, should inflationary pressures arise, the Company will be able to offset such costs by increasing rental rates in its real estate operation.

Environmental Matters

The Company has conducted environmental assessments on most of its existing owned or leased properties. These assessments have not revealed any environmental liability that the Company believes would have a material adverse affect on the Company's business, assets or results of operations. The Company is not aware of any such environmental liability. The Company believes that all of its properties are in compliance in all material respects with all federal, state and local laws, ordinances and regulations regarding hazardous or toxic substances or petroleum products. The Company has not been notified by any governmental authority and is not otherwise aware of any material non-compliance, liability or claim relating to hazardous or toxic substances or petroleum products in connection with any of its communities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

Nearly all of the Company's debt is financed at fixed rates of interest. Therefore, the Company has minimal risk from exposure to changes in interest rates.

Item 4. CONTROLS AND PROCEDURES

(a) Based on an evaluation by our management (with the participation of our Principal Executive Officer and Principal Financial Officer), as of the end of the period covered by this report, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Were effective to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosures.

(b) There has been no change in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II: OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Signatures

Pursuant to the requirements of the Securities and Exchange Act of 1934, Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

New Concept Energy, Inc.

Date: August 14, 2012

By: /s/ Gene Bertcher
Gene S. Bertcher, Principal Executive
Officer, President and Chief Financial
Officer

PRINCIPAL EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER'S RULE 13a-14(a)/15d-14(a)

I, Gene S. Bertcher, certify that:

- 1) I have reviewed this quarterly report on Form 10-Q of New Concept Energy, Inc.;
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made in light of the circumstances under which such statements were made, and is not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements and other financial information included in this report fairly present, in all material respects, the financial condition, results of operations and cash flows of the Registrant as of and for the periods presented in this report;
- 4) I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13-15(e) and 15(d)-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13(a)-15(f) and 15(d)-15(f)) for the Registrant and have:
 - (a) Designed such disclosure controls and procedures, or used such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principals;
 - (c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.
- 5) I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of Registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal controls.

Dated: August 14, 2012

/s/ Gene S. Bertcher
